NDVI-Based Vegetation Greenness Assessment Sulya and Sringeri Taluks, Karnataka, India

NDVI_Classes_Clipped_FINAL
Band 1 (Gray)
2 — Intermediate NDVI: blue
- 3 — High NDVI: green
1 — Low NDVI: red

0 10 20 km

DATA & METHODOLOGY

Data: Sentinel-2 satellite imagery, 11 December 2025
Study area: Sulya and Sringeri Taluks, Karnataka, India
Method: Normalized Difference Vegetation Index (NDVI) classification
Thresholds: Low < 0.20 | Intermediate 0.20–< 0.40 | High ≥ 0.40

Interpretation note:** NDVI classes represent vegetation greenness and are not independently validated Yellow Leaf Disease severity classes.
